Values of being were: honesty, courage, peace ability, self-discipline, confidence and capability. Values of giving were: loyalty, respect, love, unselfishness, sensitivity, kindness, friendliness, justice and mercy.

Key words : *Educational Values, the Doctor Strange Movie.*

INTRODUCTION

Literature represents the culture and tradition of a language or a people. According to Ade (2008:3), literature is thus summed up as permanent expressions in words (written or spoken), especially arranged in pleasing accepted patterns or forms. Literature expresses thoughts, feelings, ideas or other special aspects of human experiences. According Faizal (2011:5), literature is generally divided into three groups, respectively prose, drama, and poetry.

In the development of literature, movie or film as a combination of audio and visual classified to be part of the literature. According to Klarer (2005:54), movie or film is predetermined by literary techniques; conversely, literary practice developed particular features under the impact of film. The movie can

reflect the culture of a nation and influenced the culture itself. Aside from being a source of popular entertainment, the movie also became the media to educate which has education value.

Education as the most important thing and it becomes a basic need of every people in the world. Education can improve the quality of life. The process of education usually take place at family, social and school. According to Sinclair (2014:5), education is not limited to a class room or school only. It considered as a lifelong process, included experiences, knowledge, and wisdom that an individual acquired at different stages through different channels.

Education and movie have a very close relationship, because the movie there are many values of life and also that contained educational values. One of movie that contained the educational value is *Doctor Strange movie* by Scott Derrickson.

The *Doctor Strange movie* has education value, the audience will not only see the movie but can also take lessons from this movie. This movie is very interesting to explore sosial issues expecially in education value. In the movie tell about a doctor who has arrogant feeling, when the doctor was sick he got the guidance and also call her to help the world. The writer hopes that this research can help to the reader to emphasize the importance of education and also the writer hopes this study can give information especially about the educational value in this movie. The writer hopes that this research can help to the reader to emphasize the importance of education and also the writer hopes this study can give information especially about the educational value in this movie

Based on the review above the researcher is interested to analyze about educational values in the movie "*The Doctor Strange*" movie with the title "*An Analysis of Education Value by Scoot Derrickson in The Doctor Strange Movie*".

METHOD

In this research, the researcher used descriptive qualitative because it would be describe by sentences with no statistical procedure. Research study that investigate the quality of relationships, activities, situations, or materials were frequently referred to as qualitative research (Frankel & Wallen, 2009:422). Qualitative research provides detailed description and analysis of the quality, or the substance, of the human experience (Marvasti, 2004:7).

Subject of this research was a dialogue in the movie entitled *The Doctor Strange Movie* by Scott Derrickson, dialogue chose as the subject of the research because it is contain a lot of educational values.

The researcher used analysis of historical record for collecting the data because the researcher used analysis a film or movie and the educational value founding "*The Doctor Strange Movie*" by Scot Derrickson. (4) The next step was describing, the researcher describe the educational value found in "*The Doctor Strange Movie*" a movie by Scot Derrickson. (5) The last step was concluding the data analysis, the researcher concluded the result of the analysis of educational value in "*The Doctor Strange Movie*" by Scot Derrickson.

FINDINGS AND DISCUSSION

This chapter explained about the educational values in the *Doctor Strange movie* by Scott Derrickson which consists of values of being and values of giving.

Values of being

1. Honesty

Honesty is a values to show toward others, institutions, society, and ourselves. Strength and confidence that came from deep because there was nothing to hide. Example dialogue below that show values of honesty.

2. Courage

Courage means doing the right things when it is hard. Dare to tried things that either though difficult. Dare to followed your good heart in spite of marginalized and suffered from it. Dare to be gracious and friendly.

3. Peaceability

Peaceability means understanding calmness, peacefulness, patience, control and accommodation-essentially and tendency to try to accommodate rather than argue.

4. Confidence and Capability

Confidence and capability is same like self-reliance and Individuality's potential, this value is about trying to know ourselves, to do our best and to accept the consequences both of who we are and of what we do. Awareness and development of gifts and uniqueness.

5. Self-Discipline and Moderation

Self-Discipline means being able to motivate and manage yourself and your time, physical, mental, financial self-discipline and moderation is pulling in and away from the excesses of trying to do or to have too much. Moderation in speaking in eating in exercising. The controlling bridgling of one's own appetites. Understanding the limits of body and mind. Avoiding the dangers of extreme, unbalanced viewpoints.

6. Purity and Pureness

Purity is clean free from contaminating mind, without tendency such as purity of thinking.

DISCUSSION

After watch the movie, the researcher found the educational value in the movie. According to Linda & Richard Eyre (1993:92), the educational values were divided into two parts, values of being and values of giving. The researcher found the values of being which consist of honesty, courage, peaceability, confidence and capability, self discipline and moderation. From honesty the researcher found six dialogues that consist in value of honesty, the first was about Doctor strange have a sense of caring to save the patient's life even though he was involved in conflicts before with the doctor west. Second was Doctor Palmer told the real Doctor Strange condition in his hands after he had an accident. Third was Ancient One told the truth about infinite multiverse to Doctor. Fourth was kaecelius tell the truth about the Ancient One stolen a time for his live everlasting. The five was Doctor Strange told to Doctor Palmer about what happen with him after he make a journy in Kamar-Taj. And the last was Ancient One told the Doctor Strange about himself for the first time come to the Kamar-Taj. From the dialogues it all about the honesty, that there was nothing to hide.

CONCLUSION AND SUGGESTIONS

Conclusion

After analyzing the movie, the writer concludes based on the problem statements. I found the educational values in the *Doctor Strange movie by Scott Derrickson*. The educational values that consist in the *Doctor strange Movie by Scoot Derrickson* are values of being and values of giving.

- a. Values of being are: honesty, courage, peaceability, self-discipline, confidence and capability, purity
